---

Ariv Gupta is not just a communicator with strong interpersonal skills, pragmatic & creative thinker, an innovative leader ready to tackle any gamut of issues, or a team player with exceptional work ethic & collaboration skills. He is a coder, a speaker, and a marketer with a penchant for getting individuals to buy into his ideas. He is currently interested in working with companies dedicated to make people's lives easier and happier. He wants to be a part of the change organizations like such can bring.

---

---

## Skills

---

Public Speaking (5+ years competing in Speech & Debate + Presenting at Maker Faire)

Leadership (Work experience)

Sales (Received through relentless fundraising efforts for my companies)

Computer Science (Python, C, C++, Java, HTML, CSS, JavaScript)

---

---

## Experience

---

### [Teeny Makerspace](#) / Chief Financial Officer (CFO)

January 2019 - PRESENT, Fremont, CA

Forecast the economic take-in of the non-profit and how we can bring in more support in future. Have managed a couple individual volunteers under him at events and know how to optimize each and every person on my team's skills to the benefit of the team. I have helped raise over \$5000 in donations.

### [Outdoors Club](#) / Founder, Chief Encouraging Officer (CEO)

August 2020 - PRESENT, Outdoors

Founded this program from scratch in hopes to de-pressure students' minds through outdoors activities. Currently manage individuals who work under me on social media, secretary, and other positions for the local chapter of the organization and are interested in creating chapters.

### [Students x Students](#) / Founder

December 2020 - PRESENT, Online

Founded to curb the dislike currently held by many students towards writing to hopefully help them develop a positive attachment to it. A publication designed to provide a platform to uplift student voices and give them greater confidence and fulfillment in their writing. Making writing fun.

## Education

---

James Logan High School, 4.0/4.0 GPA

Harvard University, CS50x

---

---

## Awards

---

Superintendent's Honor Roll, Presidential Volunteer Service Award (Gold), Semi-Finalist @ Yale Speech Invitational, Semi-Finalist @ The State Tournament for Speech (Top 20 in the State)

---

---

## Projects

---

### [Project: Shine](#)

- A light-up table I designed using a NeoPixel matrix sourced from the manufacturer. Currently creating a model connected to a web server allowing users to have family members control the lights on the table and write messages on it from afar.
- Skills Involved: HTML, CSS, Java, C++, Google Search

### Smile Web Addon

- Currently in Development, a new tab designed to showcase the things that make the viewer of the screen happy. Hope to showcase photos handpicked based on what the user identifies as making them happy.
- Skills Involved: HTML, CSS, Java, Flask
